Old English Violin Music.

EDITED BY

ALFRED MOFFAT.

PREFATORY NOTE.

ALTHOUGH considerable attention has been given to the resuscitation of Church Music, Glees and Madrigals, Organ and even Harpsichord Music by the older English composers, very little has been done to make known the large mass of music for the Violin written by English musicians from the time of Purcell to the close of the eighteenth century. These works for the most part consist of Suites or Sonatas written for a solo violin with a figured bass, or for two violins and violoncello with a figured bass for the harpsichord or organ; another favourite form was the *Concerto grosso*.

It is with the object of making known to the public a selection of the best of these compositions that the present series has been undertaken.
