

PEMOENGAH

"OVERTURE" TO THE SHADOW-PLAY

Perhaps the highest, and certainly the most sensitive form of musical expression existing in Bali is revealed in the music which accompanies the shadow-play. This performance, in which puppets cut from buffalo-hide are thrown in silhouette against an illuminated screen, still enjoys great popularity among the Balinese.

The many speculations regarding the inner significance of the shadow-play seem to agree to an origin which was partly religious ceremony and partly entertainment, involving the invocation and representation of deified ancestors and the enacting of their heroic deeds. With the advent of Hinduism, these ancestor-gods gradually became identified with the newer pantheon, and their deeds interwoven with those of the Hindu epics. The legends enacted at present in Bali are drawn for the most part from the two great Hindu epics, the *Mahabharata* and the *Ramayana*.

The *pemoengkah* (opening music) is the termination of a long overture which is played while the puppets are being set up. A quartet of *gendér* is used, ten-keyed metallophones with resonators, two of which double the others an octave higher. The instruments are played with both hands, each holding a light hammer, whose head is a disk of wood, loosely between the second and third fingers.

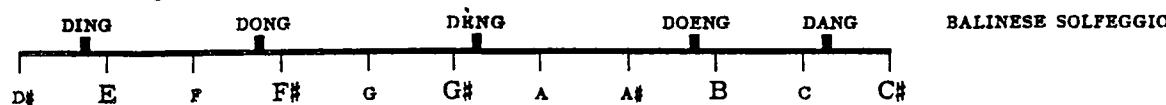

It is difficult to convey by words an impression of the strange beauty of the sound from these instruments. Sweet, yet acid, soft, yet metallic, the four *gendér* are in perfect accord with the nature of the performance. The clear-cut design of the music and the delicate arabesques are reflected in the transparent lacework of the puppets, whose gestures, miniature and heroic, nervous and menacing, are in turn retranslated into sound by the sensitive and, at times, vaguely sinister nature of the music.

The music must be played lightly and transparently, *not expressively*, with just enough pedal to attain a good legato.

The *pemoengkah*, played by native musicians on native instruments, has been recorded by Odéon. It is from the actual playing of these musicians (and not merely from their record) that this transcription has been made.

Naturally, the tuning of a Balinese scale differs from our own tempered system. The diagram below shows the approximate difference between the two.

Balinese tuning

Western tuning

GENDÉR PLAYERS

GAMBANGAN

GAMBANG MELODY

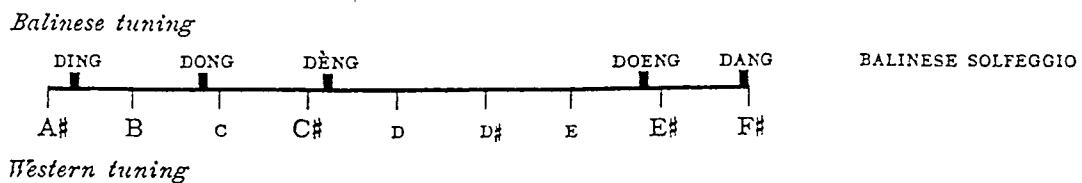

Gambang is the name of an ancient musical instrument with fourteen wooden keys. The *gamelan gambang* consists of four *gambang* and one (sometimes two) *saron*, an instrument with seven thick metal keys. This *gamelan* is now used in Bali only during the ceremonies attending the cremation of the dead. The *gambang* play the figuration, while the *saron* plays the melody.

Sometimes these melodies are transformed, and given a different instrumentation. This arrangement is an exact transcription of a modern Balinese version, arranged by a certain Balinese musician for the *gamelan gong*, a large orchestra with gongs and some thirty players. The melody is played by a group of *gangsa* (metal-keyed instruments), while the figuration is played by four men (two doubling the others an octave higher) on the *réjong* (pronounced *rayong*), a series of twelve small gongs mounted horizontally upon a stand. The figuration is composed of an elaborately syncopated two-part "counterpoint", so constructed as to give a continuous pattern of sixteenth-notes. The technic of the two lower players is as follows:

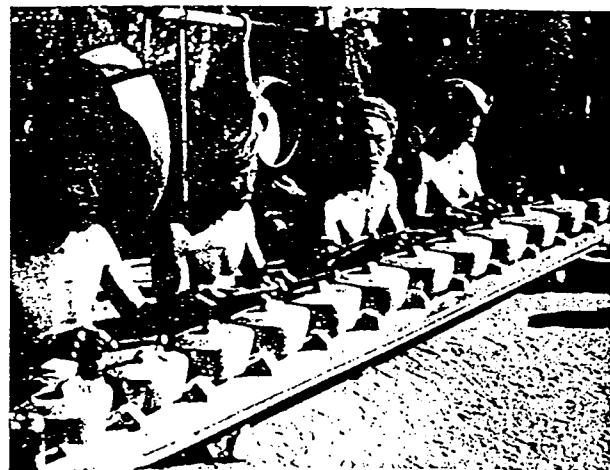

The tone of the *gamelan gong* is noble and robust, the sonority metallic, sweet, aerial. The pianos must always be played as percussion instruments. *Legato* must be achieved through pedal. The phrasing is arbitrary, since the Balinese do not stress important notes, but take their dynamics from the drum, which supplies a throbbing rhythmic undercurrent. Unfortunately, it is impossible to interpret the drum-playing on the piano. The arrangement must be considered as a recording only of all the instruments with definite pitch.

Naturally, the tuning of a Balinese scale differs from our own tempered system. The diagram below shows the approximate difference between the two.

THE GANGSA

THE RÉJONG

TABOEH TELOE

This music is the first to be played at any large ceremony in Bali, such as a cremation or a temple feast. It is purely instrumental (*not dance-music*), and is played by the *Gamelan Gong Gedé*, the gamelan with the great gongs, which comprises many metal-keyed instruments, three large gongs, and many small gongs.

The melody (assigned in this transcription to the first piano) is played by a single musician on the *trompong*, a series of ten small gongs mounted horizontally. The accompaniment (here assigned to the second piano) is played by four men on a similar instrument, called the *réjong*. The figuration in the second part of the piece is played on metal-keyed instruments.

The gongs are represented thus

The fact that these notes often sound dissonant with the melody must be ignored, for the gongs aim not to harmonize but to *punctuate* the melody. They should always be played comparatively softly.

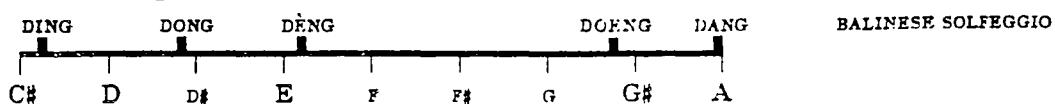

The melody for the first piano must ring out clearly, the syncopations sounding as liberations rather than rhythmic intensifications. The accompaniment must always be rhythmic, precise. Plenty of pedal must be used, for the gamelan is never dry in sound, but rich in echoes and overtones. On the repetition of each section, gong 1 should be played in the place of gong 2 and vice versa, to maintain the systematic alternation of these two.

The whole piece should project a mood of noble tranquillity, definitely established at the very outset in the free, meditative introduction for the *trompong*.

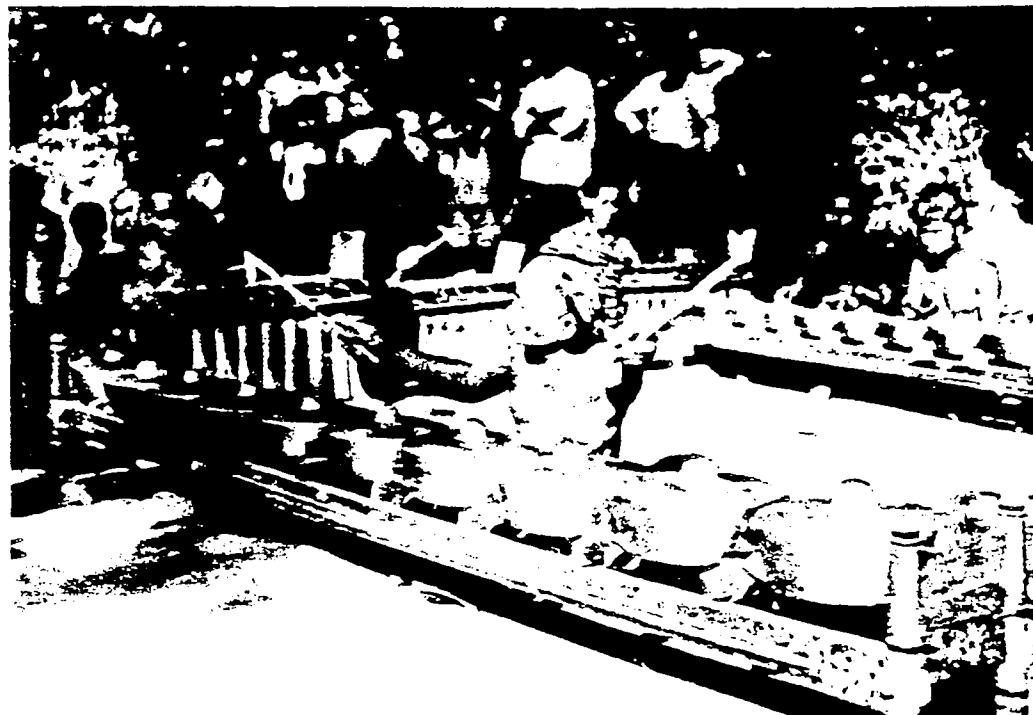

Taboeh Teloe, in its original form, has been recorded by Odéon. This transcription, however, has been taken from the actual playing of the musicians themselves who made the record.

Naturally, the tuning of a Balinese scale differs from our own tempered system. The diagram below shows the approximate difference between the two.

Musical score for two staves, I and II, in 2/4 time with a key signature of one sharp.

Staff I:

- Measures 1-4: Eighth-note pairs connected by horizontal stems.

Staff II:

- Measures 1-2: Eighth-note pairs.
- Measures 3-4: Eighth-note chords.
- Measure 5: Eighth-note pairs.
- Measure 6: Eighth-note chords.
- Measure 7: Eighth-note pairs.
- Measure 8: Eighth-note chords.
- Measure 9: Eighth-note pairs.
- Measure 10: Eighth-note chords.
- Measure 11: Eighth-note pairs.
- Measure 12: Eighth-note chords.
- Measure 13: Eighth-note pairs.
- Measure 14: Eighth-note chords.
- Measure 15: Eighth-note pairs.
- Measure 16: Eighth-note chords.
- Measure 17: Eighth-note pairs.
- Measure 18: Eighth-note chords.
- Measure 19: Eighth-note pairs.
- Measure 20: Eighth-note chords.

Dynamics:

- molto tranquillo* (Measure 2)
- p ben legato* (Measure 2)
- poco marc.* (Measure 6)

Musical score for two staves (I and II) in G major (two sharps). Staff I consists of eighth-note patterns. Staff II consists of sixteenth-note patterns. Measures 1-4 show a repeating pattern of eighth-note pairs followed by sixteenth-note pairs.

Musical score for two staves (I and II) in G major (two sharps). Staff I consists of eighth-note patterns. Staff II consists of sixteenth-note patterns. Measures 5-8 show a repeating pattern of eighth-note pairs followed by sixteenth-note pairs.

Musical score for two staves (I and II) in G major (two sharps). Staff I consists of eighth-note patterns. Staff II consists of sixteenth-note patterns. Measures 9-12 show a repeating pattern of eighth-note pairs followed by sixteenth-note pairs.

Musical score for two staves, I and II, in G major (two sharps). Staff I consists of a continuous series of eighth-note pairs. Staff II features a melodic line with eighth-note pairs, sixteenth-note patterns, and sustained notes.

Musical score continuation. Staff I has dynamics 'mf' over the first four measures. Staff II has dynamics 'mf' over the first four measures.

Musical score continuation. Staff I consists of eighth-note pairs. Staff II features a melodic line with eighth-note pairs, sixteenth-note patterns, and sustained notes.

Musical score for two staves (I and II) in 4/4 time with a key signature of one sharp. Staff I consists of eighth-note patterns with grace notes. Staff II consists of sixteenth-note patterns with grace notes.

Continuation of the musical score for two staves (I and II). Staff I continues with eighth-note patterns. Staff II continues with sixteenth-note patterns, showing a transition with grace notes and slurs.

Continuation of the musical score for two staves (I and II). Staff I continues with eighth-note patterns. Staff II begins with a sixteenth-note pattern followed by a measure of rests, with the instruction "più tranquillo" above the staff.

Musical score for two pianos (I and II) in 2/4 time, key signature of one sharp. The score consists of three systems of four measures each.

System 1 (Measures 11-12):

- Piano I:** Treble staff: eighth-note pairs slurred. Bass staff: eighth-note pairs slurred. Dynamic: *p*.
- Piano II:** Treble staff: eighth-note pairs slurred. Bass staff: eighth-note pairs slurred. Dynamic: *p*.

System 2 (Measures 13-14):

- Piano I:** Treble staff: eighth-note pairs slurred. Bass staff: eighth-note pairs slurred. Dynamic: *subito ff*. Measures 13-14: eighth-note pairs slurred. Dynamic: *p*.
- Piano II:** Treble staff: eighth-note pairs slurred. Bass staff: eighth-note pairs slurred. Dynamic: *subito ff*. Measures 13-14: eighth-note pairs slurred. Dynamic: *p*.

System 3 (Measures 15-16):

- Piano I:** Treble staff: eighth-note pairs slurred. Bass staff: eighth-note pairs slurred. Dynamic: *ff*. Measures 15-16: eighth-note pairs slurred. Dynamic: *p*.
- Piano II:** Treble staff: eighth-note pairs slurred. Bass staff: eighth-note pairs slurred. Dynamic: *ff*. Measures 15-16: eighth-note pairs slurred.

Musical score for two staves (I and II) in G major (two sharps). Staff I consists of eighth-note patterns. Staff II features sustained notes with grace notes and slurs.

Musical score for two staves (I and II) in G major (two sharps). Staff I consists of eighth-note patterns. Staff II features sustained notes with grace notes and slurs.

Musical score for two staves (I and II) in G major (two sharps). Staff I consists of eighth-note patterns. Staff II features sustained notes with grace notes and slurs.

Musical score for two voices (I and II) in G major, 2/4 time.

Section 1:

- Staff I:** Consists of eighth-note patterns. Measures 1-10.
- Staff II:** Consists of sustained notes with grace notes and slurs. Measures 1-10.

Section 2:

- Staff I:** Consists of eighth-note patterns. Measures 1-10.
- Staff II:** Consists of sustained notes with grace notes and slurs. Measures 1-10.

Section 3:

- Staff I:** Eighth-note patterns. Measure 1 starts with a dynamic *p*, followed by *f* and *sforzando* (sf) markings. The section ends with a dynamic *sforzando* (sf).
- Staff II:** Eighth-note patterns. Measure 1 starts with a dynamic *p*, followed by *f* and *sforzando* (sf) markings. The section ends with a dynamic *sforzando* (sf).

The image displays three staves of musical notation, likely for a two-voice composition. The notation is organized into measures separated by vertical bar lines. The top measure begins with a dynamic of $\hat{\text{A}}$. The first staff (Voice I) consists of two systems of four measures each. The second staff (Voice II) also consists of two systems of four measures each. Measures 1-4 of Voice I feature various note heads (solid, open, diagonal), stems (up, down, diagonal), and slurs. Measures 5-8 of Voice I show eighth-note patterns with stems up and slurs. Measures 1-4 of Voice II consist of eighth-note patterns with stems up. Measures 5-8 of Voice II begin with a dynamic of $\hat{\text{B}}$, followed by eighth-note patterns with stems up.
