Craig Bakalian

Toy Piano

Biography

Unconscious to the world born
 Into an extreme misogynistic family

Audiation abused by ordained teachers
 of college level music theory

Lashed out in infantile anger
 Attempting to recreate my mind

Degreed and Degreed to teach
 not the way taught me

Adoption of two beautiful children
 After my wife adopted me

Program Note

Deep into the history, moons
 Skulls of those before me

Seeking awards for dancing hours
 Giving everything to the poor

USA! happy movement is better
 The day with no work

Do not look at money
 Or brain damage from CTE

If I had some friends
 They would join an orchestra
